

Latens Cipher Manual

1. Custom Phrase

Pitch_Pulse is a brand where football meets crypto, money from forex trading and a speedbike fuels success.

2. Cipher Alphabet

Cipher Alphabet (Derived from Phrase):

PITCHULSEABRNDWFOMYXGKJQVZ

3. Standard vs Cipher Mapping

A -> P

B -> I

C -> T

D -> C

E -> H

F -> U

G -> L

H -> S

I -> E

J -> A

K -> B

L -> R

M -> N

N -> D

O -> W

P -> F

Q -> O

R -> M

S -> Y

T -> X

U -> G

V -> K

W -> J

X -> Q

Y -> V

Z -> Z

4. How It Works

This cipher uses a unique phrase to reorder the alphabet. The first appearance of each letter in the phrase becomes the new letter mapping. To encode a message, replace each letter using the chart above. To decode, reverse the process.

This method ensures that only those with the original phrase can decode the message. You can change the phrase to create a completely new cipher (Latens 2.0, 3.0, etc.).
